SCHOOL POST IS ACCEPTED BY BOWMAN

New Superintendent, Sends
Notice to Local Board
Today

COMING DEC. 15

Given Release from Chillicothe Contract in Board Action There

George A. Bowman, of Chillicothe,
this morning accepted appointment as
superintendent of Marion public
schools. Bowman was given his
release by the Chillicothe board of
education at a meeting last night.

In a telephone conversation this
morning with Frank C. Greenheimer,
president of the local board of education,
Bowman notified the school
authorities here that he would accept
the position.

Although there has been little doubt
that Bowman would be the new
superintendent of Marion schools, he was
not able to definitely accept until he had
been released by the Chillicothe board.

Bowman has been school superintendent
at Chillicothe the last six years and is
now serving the third year of a six-year
contract with the board of education there.

In his conversation with Greenheimer
this morning, Bowman stated that he
would be ready to take full charge of
his office here on Dec. 15.

He will be here, however, from time
to time before that date, to become
acquainted with his new duties.

Girls No Longer May Be "Pleasing
Phone"

MT. CLEMENS, Mich., Nov. 23.—The
pleasingly plump girls of Mt. Clemens
high school will become merely pleasing,
according to an edict issued today
by Miss Edith Cooper, girls' gymnasium
instructor. As long as the girls are not more
than 20 per cent overweight, or 30 per
cent underweight, all is well, but if
they go beyond these figures they will
be given "chatter track" work-outs
and diet tables.

"Y" DRIVE FOR MEMBERS TO BE CONTINUED

Close of Three-Day Campaign
Shows Goal Not
Reached

133 ENROLLED

Plans Made To Carry on
Towards Total of
400

The campaign of the Marion Y. M. C. A.
for 400 new members closed last
night with more than 200 below the
quota, Earl N. Hale, secretary of the
association, announced today.

When reports were received at a
meeting of the association last night, it
was found that only 133 new members
had been obtained, and only 43 new boys
enrolled. The goal set was 400.

Officials of the Y. M. C. A. were
optimistic today, however, in spite of
the result of the drive and stated that
the campaign would be continued until
the quota had been filled.

Not Enough Time
The small number of boys obtained
as new members was attributed by
Y. M. C. A. officials to the time set for
the campaign which continued for only
three days. They realize that boys
must obtain their parents' permission
before joining the Y. M. C. A. and
that this often takes more than three
days.

Stating that the drive will be con-
tinued more extensively than in the
three-day campaign, Y. M. C. A. officials
are confident that the full quota
will be reached.

SHORTER DAY, HIGHER WAGES SEEN BY DAVIS

Secretary of Labor Declares
Long Week Principle
"Dead as a Dodo"

SPEAKS BEFORE A. F. OF L.

Says Prosperity Is Only
Created and Enlarged by
Liberal Pay

New Orleans, Nov. 23.—Predicting
a shorter day with higher wages in
American industry, Secretary of
Labor James J. Davis, addressing the
American Federation of Labor here
today, declared the long day and week
principle is already "dead as a dodo,"
although there are a few sections of
the country not yet in step.

Davis opposed reducing wages to
prevent unemployment, and said
prosperity is never promoted by
wage cuts. "Prosperity," he
said, "is only created and enlarged
by a liberal wage, and for the sim-
ple reason that it creates a market."
The millions of workers are the
greatest buyers to our markets, and
a liberal wage equips them with a
buying power that makes business by
the simple means of creating a larger
market.

Must Yield Profit, Wage
Davis said that it was his firm con-
viction that the business leaders of
the country "will soon link the
shorter day with the higher wage as
a cardinal principle of prosperity."

"American industry today and to-
morrow faces some serious problems,"
he added. "It is plain to every per-
son interested in the well-being of the
country, whether he be employer or
employee, that we can never reach the
peak of prosperity unless every single
industry can dispose of its product at
a profit that yields a satisfactory re-
turn to its owners and a proper wage
to its workers."

At the present time, he said, there
are a number of industries that are
in a state of "semi-collapse."

SOCIETY MEETS

Lakko Group Parks Box for Flower-Esther Home

Lakko, Nov. 23—The Missionary society of the M. E. church met at the parsonage Wednesday with Mrs. J. J. Carter as hostess, assisted by Mrs. S. I. Clements and Miss Estelle Burroughs. The leader of the afternoon was Mrs. Sheldon Krump.

After a short business session the following program was presented: devotionals, Mrs. Phila Krump; prayer, Mrs. W. P. Larue; reading, "A Visit to Ellis Island," Mrs. B. J. Haffner; piano solo, Miss Lora Dale Mulvaney; study book review, "What Next in Home Missions?" Mrs. Sheldon Krump.

Guests of the afternoon were Miss Burroughs, Miss Keck, of Mt. Victory; Miss Krump, Mrs. S. I. Clements; and Mrs. Theo McElheney and daughter, Hene. Mrs. McElheney was enrolled as a new member.

A box of jelly and a barrel of canned fruit were reported ready for shipment to the Flower-Esther home.

Begin At Bottom, Editor Advises O.S.U. Students

Marion Star Bureau
Ohio State University
Columbus, Nov. 23 — An opinion that a majority of the Americans are wrong in their belief as to the importance of a college education in the life of an individual, was given by Merle Crowell, noted editor of the American magazine in a statement to students of Ohio State university when he visited the campus recently.

"A college education is not a necessity to success in the business world," Editor Crowell stated. "However, even though it is not a necessity, it is most certainly an asset. It is in reality a tool, whereby the college man and woman can help themselves to their chosen professions."

The editor and publisher further has a distinct view of the attitude of the

college men after graduation. "If the college graduate can forget that he is a college man and humble himself enough to learn his business from the ground up, he will no doubt pass the non-college man. This however, many college men are unable to do and want to step immediately into the executive chair."

"I have found many men fresh from college halls who have made good. They are usually the men who show no preference as to the variety of work which might be able to give them when they come to me for employment."

P. T. A. MEETS
Bethlehem Grange Presents Program at Wabdo School

The Wabdo Parent-Teachers association held its monthly meeting Tuesday in the high school auditorium. After the business session conducted by the president, Mrs. William Ullmer, the program was turned over to Miss Avenelle Schynsfort, lecturer of the Bethlehem Grange whose members furnished the entertainment. After a piano duet, "Qui Vive," by Miss Schynsfort and Mrs. R. W. Povenmire, Charles McNeilly entertained with a reading, "I Ain't Gonna Cry No More." Two members, "Knitting Wood" and "The Bull Dog," were sung by the Bethlehem Grange club, directed by Mrs. Povenmire and composed of James McNeilly, Fred Wilson, Ralph Bender, Howard Hecker, Edison Baker, Bernard Lauer, Carl Dieringer and Ralph Gerion. Ruth Fogle gave a musical recitation, "A Perfect Little Lady," and a dialogue, "The Cheerful Caller," was given by Mahel Robinson and Roma Hider. Mrs. R. W. Povenmire entertained with a group of three songs, "Philosophy," "Me, Me, Me," and "The Elephant and the Portmanteau." After a reading, "Sometimes I Wish I Were a Boy," by Hester Geyer, "Hall Halls of Liberty" was sung by group of Mrs.

Following the entertainment, Ed-want Bender and E. T. Miller, captain of the membership drive, directed the activities which culminated in a banquet celebrating the close of the campaign for new members. Miss Lucille Carroll, head of the Wabdo Home Economics department, superintended the banquet.

All Pile Aged Ended Without Cutting. Simple Internal Treatment Gives Quick Relief

If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the new treatment known as Dr. Leobhardt's HEM-ROID.

The doctor's treatment is internal. By experimenting, he discovered the cause of piles and then went further and compounded a remedy that would remove the cause.

Every pile sufferer should benefit by his discovery and so that there will be no doubting or delay, HEM-ROID & Cooper and all druggists are authorized to sell HEM-ROID with guarantee that it will do as stated or money back.

On that honorable basis every pile sufferer should try Dr. Leobhardt's HEM-ROID without delay.—Adv.

What We Sacrificed.
The 850-foot United States naval aircraft carrier, Lexington, established a new world record for speed and power developed by large motor-driven ships, off Santa Cruz island last week, when she developed 210,000 horsepower and attained a speed of 34.5 knots, which is about forty land miles an hour.

The greatest power previously developed aboard a ship was 151,000 horsepower by the British battle-cruiser, Hood, in 1920.

It will be recalled that the Lexington traveled 2,223 miles from San Pedro to Honolulu, last June, in seventy-two hours and thirty-four minutes, a record run. On the third day of that famous trip she did 77 miles, bettering the previous record day's run of 680 nautical miles by the light cruiser, Omaha, in 1922. The best day's run of a merchant ship is the 676 nautical miles lodged by the Cinnarder, Mauretania, in 1911.

At the height of her test, last Friday, the Lexington consumed 25,000 gallons of fuel oil an hour and used 3,000 gallons of distilled water in her boilers, which gives us an insight into the why of the high cost of passage on the big fast liners plying between this country and Europe. Speed in excess of eighteen knots an hour costs out of all proportion to speed below that mark, the cost going up by leaps and bounds for each knot about twenty-four or twenty-five.

While considering the matter of future disarmament agreements, it may be well to pause and take stock of what that in Washington cost us. Were it not for that agreement, our navy today would have in the Lexington and her sister ship, the Saratoga, the two fastest and most powerful battle-cruisers afloat, two vessels in a class by themselves. The sacrificing of the two cost this government more in first-line-of-battle strength than was given up by all the other signatories combined.

"Have a Heart."

There is one pronoun common to all cities—that of affording aid to the unfortunate among their people who may be temporarily in need of relief. The need may be due to sickness, to incapacity as the result of accident, to lack of employment. No matter what the cause, there is, and probably always will be, legitimate need by an element of the population for relief. This is true in Marion and Marion county as it is true the land over.

There are a number of agencies for the accomplishment of this work of relief, but none of them has a finer record of consistent worthiness than the American National Red Cross, the twelfth annual roll call of which will be locally opened Sunday.

President Coolidge has just said of the organization: "We have tested the Red Cross in war and in peace. It has never failed us." General Pershing, speaking in behalf of the 1923 roll call, said: "The Red Cross deserves without stint the generous and wholehearted support of the American people."

President Furrand, of Cornell university, wrote: "Surely the roll call of 1923 will show the gratitude of the nation that the Red Cross stands today, as it stood ten years ago, prepared and always ready, the proved and trusted representative of the great heart of the American people."

It would be possible to go on almost interminably quoting the eminent of the land in tribute to the Red Cross, but it is not necessary. Nor is it necessary to quote tributes to the local organization. The work it has done and is doing is well known.

But neither the national nor the local organization can carry on its work without funds, and the common source of funds to both of them is through subscription. A membership in the Red Cross costs a dollar, of which fifty cents goes to the national organization and fifty to the local for local relief. No matter what the size of the subscription, in excess of a dollar, all above the fifty cents to the national organization goes to the local chapter to care for the poor and needy here at home.

A canvass of the residential sections will be made between 1 and 3 o'clock Sunday afternoon, and generous responses should be made to the calls of the collectors. The cause is so worthy that all should be glad to contribute, and contribute liberally. They should be glad to give of what they have to succeed, when need comes, those who have been less fortunate.

In a sentence—"Have a heart."

Leprosy Cured.

The United States public health service in Washington has announced that John Early, the North Carolina mountaineer whose reported escapes from leprosy colonies have occasioned the greatest anxiety on the part of health officials, has recovered from leprosy.

The announcement that Early's case as "another triumph in modern medicine," and credits the mountaineer's "eccentricities" with having contributed much to the passage of the law placing leprosy under care of the public health service and to awakening public interest in the leprosy problem in this country.

Early, who once resisted with a rifle effort to confine him in the National Leprosy home at Carville, Louisiana, where he recovered, will return this month to his home in the mountains near Tyron, North Carolina, free from the disease, but carrying its scars. Microscopic tests of his blood and tissues show that the disease has been "arrested." It was announced that "there is scant danger of a relapse, as since 1921 only one recovered leper discharged from the Carville institution by the public health service has suffered a recurrence of the disease."

The health service's announcement states that Early's recovery was brought about by the injection of chaulmoogra oil. Up until a year ago, these injections caused excruciating pain to the patient for several hours, but a new method of administration by mixing a harmless anesthetic with each dose was developed and Early, along with the other patients at Carville, welcomed the improved method.

When one stops to consider the ignominy, pain, and suffering, and deaths this horrible malady has caused from away back in history, away back for centuries before the time of our Saviour, what limit can be placed upon the credit and honor due to the scientists who have labored for years to the end that they might find for it a cure and whose labors have finally been crowned with success?

Recognition Well Merited.

Announcement that Charles S. Jones will be secretary to Governor Cooper, when the latter assumes office January 1, will be gratifying to every Ohioan who is hopeful for a business administration at Columbus during the ensuing two years.

Mr. Jones was secretary to the late Senator Willis, and it was in Mr. Jones' arms at Delaware that Mr. Willis died so suddenly at his triumphal home-coming early in the year. But appointment of Mr. Jones as Governor-Elect Cooper's secretary is in no way a political appointment, or the paying off of a political obligation. It is well-merited recognition of the capabilities of a man profoundly fitted for the task he will assume.

Mr. Jones is widely known in Ohio, which means that the welcome mat will be prominently displayed at all times at the entrance to the governor's office. During the recent campaign, Mr. Jones was head of the Republican campaign publicity department. He has long been active in religious work, like Mr. Cooper, and for this reason sounds rather close to the governor-elect.

When Mr. Jones assumes his new duties he will succeed Jacob L. Meekstroth, who was a newspaper man in Columbus prior to becoming Governor Donahue's secretary six years ago.

"WANT TURKEYS?"

Diet Errors Cause Trouble.

BY ROYAL S. COPELAND, M. D.

A few days ago I told you something about tuberculosis of the intestine. Perhaps it will be well now to speak about the simple form of inflammation of the lining of the intestinal tract. This trouble is known to the medical profession as "enteritis," and most forms of enteritis are of the catarrhal type. In simple language, this means that there is such an irritation or inflammation of the mucous membrane of the bowel as to result in an increased flow of mucus. It is just as much a catarrhal condition as a head cold where there is a marked increase of the flow from the nose.

Any part of the intestinal tract may be involved in a catarrhal inflammation. When there is a disturbance in one location, it is not long before the entire lining membrane may be involved. The most common cause for enteritis, particularly in children, is the taking of improper food. It may be produced by over-eating, and with most people the eating of unripe fruit is a common cause. Diarrhea is the most frequent and almost the only symptom of a mild case. Whenever there is an attack of diarrhea it is because the lining membrane of the intestine has been disturbed.

Most of us know what particular articles of food will produce diarrhea. The reason why is because that particular food is capable of causing congestion of the intestinal lining. It acts as a poison to the part of the body.

Spiced milk, strong coffee and plums are among the foodstuffs which irritate some individuals. It is a remarkable fact that pronounced changes in the weather will sometimes produce intestinal irritations. I have heard a great many patients complain of acute diarrhea following exposure to cold, or to such weather conditions as I have suggested.

We can not disregard the effect of nervous influences. One of the symptoms following stage fright, or other similar emotions, is marked diarrhea.

Of course, we are familiar with this symptom as an accompaniment of typhoid fever, tuberculosis, pneumonia and other infections. As a rule, however, it is a passing disturbance, due to some dietetic error.

In a pronounced case of enteritis there may be some pain. Indeed, a colicky pain is quite common where the disturbance is due to taking the wrong kind of food.

There may be slight amount of fever and great thirst. In consequence, the tongue may be dry and coated. If the diarrhea continues for a long time, there will be prostration and sense of illness.

It is a good thing to go to bed and reduce the diet. Stills should be omitted and, indeed, to give up food entirely will be helpful. At the same time quantities of hot water may be taken.

The colic may be relieved by applying hot, moist compresses over the abdomen. A hot water bottle and frequent hot baths will help.

ANSWERS TO HEALTH QUERIES

G. F. Q.—I am a young man of twenty-six and have a lump below the kneecap on the front of the leg. Is this dangerous and should it have attention? It does not pain, but has persisted for about three months.

A.—May be due to strain or some other injury. Have your doctor look at it and prescribe the necessary treatment. It would be difficult to advise without further careful examination.

H. B. Q.—Will a loose and inflamed kidney ever grow back into place? The patient is only sixteen years of age. What treatment would be advisable?

A.—Is it possible to drink too much water?

A.—Will shoulder braces improve round shoulders?

A.—Depending upon the seriousness of the trouble, you should be under the care of a doctor and follow out his instructions. The treatment depends upon the individual case.

A.—No.

A.—Yes, if properly fitted and adjusted.

S. F. Q.—I have a very peculiar looking brown spot on the side of my nose. It is the size of a pea and at times there is a scab or dry skin upon it. What do you advise?

A.—What causes the skin to crack between my toes?

A.—It would be advisable for you to consult a skin specialist. He will be able to advise you as to treatment.

A.—You are probably troubled with eczema. For further particulars send a self-addressed, stamped envelope and repeat your question. Copyright, 1923, Newspaper Feature Service, Inc.

E. W. Q.—What causes dizziness and what can I do to overcome it?

A.—Indigestion in diet is usually responsible for dizziness. You must avoid sweets, excessive starches and tea. Copyright, 1923, Newspaper Feature Service, Inc.

Editorial Opinion.

SOUTH'S POLITICAL EMANCIPATION.

The gratification that Mr. Hoover naturally derives from the heavy vote received by the Republican ticket in the South this year must be enhanced by his realization that this indication of political emancipation has vast economic implications for the former slave states. "I firmly believe," writes the president-elect to the Manufacturers' Record, "that the time has come when in all sections men and women should vote for their convictions as to conditions at the present time and not based on things of former generations." Then he points out: "With one-third of the nation's land area, with about three-fifths of its sea frontage, with vast resources in soil, climate and minerals, no limit can be set to the continued progress and ever increasing prosperity of the whole South." The connection between these two statements is clear.

The South came out of the civil war stunned, and economically and financially prostrate. The fact that its anti-bellum prosperity had been based on agriculture and slave labor made its readjustment to the conditions that followed the war all the more difficult. Within the last twenty or thirty years, however, the South has made rapid progress. Capital has gone in from the North and has enabled it to develop its natural resources and process the products of its soil at home. This late but steady industrialization of large areas in the South was beginning to influence the southern vote. The disposition of southerners to approach political issues from the angle of inherent merit rather than from that of traditional partisanship, which the results in the recent election seem to show is increasing, can hardly fail to reflect helpfully on the future economic course in that potentially great section of the country.

This does not mean that the South will attain to sudden economic rejuvenation by seizing an unearned prize from one party in the other; but that its prospects for more rapid progress are greater if it abandons the habit of always wearing the same labels without regard to economic consequences, and if blind allegiance to practices growing out of conditions that have passed away.

All this Mr. Hoover unquestionably sees; and seeing it he stresses the wisdom of men and women in the South, as well as in other parts of the country, voting with an intelligent eye to the welfare of the country as a whole, which is the surest way of promoting the welfare at their sections in particular. —Detroit Free Press.

Dinner Stories.

"See here!" exclaimed the angry man, "I wish you would muzzle that dog of yours at night. His barking keeps me half awake."

"I was going to request you to muzzle your baby," rejoined the neighbor. "His nightly howling annoys my dog."

"Does your wife let you have the last word in an argument?"

"There is never any question on that point," answered Mr. Meekton, cheerfully. "When Henrietta talks, there is no argument."

"Now, Johnny," said the Sunday-school teacher after the lesson had been read, "which would you rather be, the wheat or the tares?"

"The tares," answered Johnny promptly.

"Why," said the teacher in surprise, "how can you say that, when you know the wheat represents the good and the tares the bad?"

"Oh, that's all right," replied the precocious youngster, "but the wheat gets thrashed and the tares don't."

The growth of the chain drug store is another metropolitan phenomenon. With a drug store on every prominent Manhattan corner, further expansion seemed impossible. Yet within the year a new chain has opened sixty-seven new, beautifully-outfitted stores. No small endeavor has made such marked progress as the drug store in the memory of most of us as the drug store was a gloomy, depressing spot filled with pungent odors and window decorations consisted of a red and green bottle or a pyramid of empty corn salve boxes. Now look at 'em!

Why go so far for our heroes—so far from the earth of our own home people? One of the noblest of stories is that of the New York state farmer boy who became Carl Akeley, the famous African explorer. Born on a farm—ab, yes, how often have the "green fields been the nursery of America's best."

"O fortunate alumnus, sua si bona norunt, Agricola!"

"O happy tillers of the soil, if they but knew their good fortune."

When calm, home-loving temperaments are happy in their daily life with nature; when from them spring the seeds of genius they are happy in the stimulus of their environment, making their gifted sons both physically and mentally vigorous and enduring.

Carl Akeley died two years ago on the slopes of Mount Mikeno in the Belgian Congo, where he and his wife had been engaged since 1921 in scientific study of that strange and formidable anthropoid, the gorilla, amidst its native haunts, and in surveying the African national park, which surrounded the region. He was burly, like a warrior, whose left arm was on the shoulder of that same mighty gorilla. Where can you find a more noble pathetic scene than that described in these words from Science:

"Mrs. Akeley, aided by the other members of the expedition and her black boys, prepared his grave in the solid volcanic rock and, using the only available materials, built a coffin of native mahogany, metal-lined, and upholstered with soft woolen blankets. An eight-foot stockade of mahogany posts was erected around the burial plot to prevent the encroachment of the jungle. A great slab made of cement, which Mrs. Akeley caused to be brought from a government post a hundred miles distant, bears the explorer's name and the date of his death."

The reader, will here perceive, booming through the story, another heroic saga—that of the wife, who, having shared in all her husband's labors and dangers, thus cared for him dead. And she remained there, during seven weeks, in a camp by her husband's grave, at an altitude of 12,500 feet, on the mountain of the gorillas, laboring to complete the survey of the park and to continue the study of those animals. No wonder that the Klug of the Belgians hushed her. No wonder that the American Museum of Natural History has highly honored her. And she has contributed another stone to the monument that perpetuates the memory of the virtues of the marriage tie.

In modern times, fame follows achievement in such work as that of Carl Akeley more rapidly than in the days when the transmission of intelligence was slow, and when popular interest in scientific knowledge was at a comparatively low level. But, on the other hand, the competition is now so great that the measure of fame is more exacting, and many things that acquire temporary celebrity are remembered but for a day. But Akeley's work was original and fundamental and its fame will be lasting. His name will stand high among those who have uncovered the mysteries of the great "Dark Continent." It is pleasing to learn that the Belgian government is going to surround the cement slab which Mrs. Akeley placed over her husband's grave with a commemorative bronze tablet. —Copyright, 1923, International Feature Service, Inc.

The Way of the World.

"Our code of ethics is lived—no printed. I would urge every member to adopt loyalty, cooperation, team work, and fair play as his personal ideals."

These are encouraging words by the president of a business organization, L. T. White, head of the National Standard Parts association. It's rather an "inspirational" thing to have a code of ethics in writing. Some need organizations have their codes printed in fancy form and framed. To live your code of ethics—that is something else.

Don't say you can't find anything to do in the world. There is plenty to do, but you must have a bit of ingenuity to think what it is and a bit of get-up-and-go to start doing it. Let us take a lesson from Peter Tyler, London onion peeler. Some years ago Tyler and his wife began to buy onions and resell them, peeled. Later he had to hire scores of folks to help him peel. He died recently well-to-do for those parts.

A transcontinental train was considerably delayed at an Idaho station. A traveler walked up the main street. He saw a man on the sidewalk in front of a certain store. It happened that the man was the owner of a chain of stores extending all over the United States. He borrowed a broom and cleaned the sidewalk in front of his store, so that the place would look attractive to possible customers. Perhaps this act reveals the chief reason why he owns a great chain of stores.

On this subject of work, one wonders why there is such a prejudice against work with the hands. Vocational guidance experts in schools know that every young college man wants to be a white collar job. He wants to be in a factory unless that sort of experience is absolutely necessary to prepare him for what he wants to do later. What is it about the human-being that rebels against wearing overalls if he can get anything to do in better clothes? All honest work is equally honorable, and the man willing to work with his hands, as well as with his brains, frequently can make twice as much money as a man who wears a white collar man.

CLUB READY FOR LICENSE SALE

gements for 1929 Distribution Outlined by Secretary

of automobile license sale will begin on Dec. 1 at the Marion Auto club, 111 Gallagher, secretary of the club, announced today. To obtain new plates it is to show the bill of sale of the car, and whether the car has been before or not, Mrs. Gallagher said. In the case of the bill of sale, the truck revealed before a license was issued, she said. Extension likely. It is probable that in the case of an automobile after Dec. 31 without a license, the owner must have a 1929 license. It is probable that local motorists, who have put on their 1929 license, will, although Police W. Thompson has not yet announced to that effect, be required to have a new license. Changes have been made in the number of the plates for 1929. The number which was used in 1928, 100,000 has been discontinued. A new 1,000,000. It is now 1,000,000.

Moves All Down. Changes moves all the letters 100,000 to 1,000,000. Now indicates 1,000,000 on the 1929 license plates. Formerly indicated 1,000,000. Changes 1,000,000 instead of 100,000, and so on up to 1,000,000. According to the number of the license, the number of the license plates in his series. The 1929 license plates will be 1,000,000 to avoid any possible confusion with the letter "D" 1,000,000.

SPECT HOSTESS

ENTERTAINS GUILD

Hostess of the World's Guild of the Baptist church, Mrs. Dorothy Grey, entertained the guild members at a social evening at the home of William River. The meeting was held at the home of Mrs. Dorothy Grey, 111 Gallagher. The program consisted of singing, and the scriptures. Mrs. Dorothy Grey, who responded to the roll call, then gave a charge of Mrs. Grey, Henrietta Hedges, Marie Adrich, Mrs. Dorothy and Harriet Berry. The program was sung by Marguerite and Mrs. Dorothy Grey. The program was served by the guild and Miss Helen Cox, assistant hostess.

TREATMENT OF NEW CONJOLA BANISHED STOMACH TROUBLE

That Master Medicine Proved To Be of Exceptional Merit In His Case

MR. MILTON MATHEWS

Mr. Milton Mathews, a man of seventy-four years old and at the time of his illness, I had a stomach trouble. I could not eat and I was very weak. I tried many remedies but nothing helped. I was very tired and lacked the ambition to do anything. In fact, life was a steady round of suffering. I was recommended Konjola and I decided to give it a try. No one will ever know how much this medicine helped me. I am now a healthy man and I am able to do all the work I want to do. I am filled with energy and I have been benefited in every way.

Konjola is different than any other remedy in this section. It contains twenty-two juices extracted from all plants which invigorate the liver, kidneys and bowels to healthy action. The effect of Konjola on the entire system is amazing relief in cases of stomach trouble. It has been going on for many years. At the same time, many weak and nervous systems have been brought to a new state of health. It is a new and a very new remedy. Such a vast number of men and women in this city have been benefited with this new product, until now, Konjola is the most highly indomestic medicine known in this section. Konjola is sold in Marion at Stump's Pharmacy and by all the best druggists throughout this section.

-o- The New Book -o-

BY FRANCES JENNINGS

PITH comments on life and the humorous observations on the trend of the times and amusing changes wrought in America since the beginning of the twentieth century are given by Booth Tarkington in his new and quite unusual book, "The World Does Move."

In the beginning of the book Mr. Tarkington is a struggling young writer far from the fame which some 31 books of fiction have brought him in the intervening years. While not wholly autobiographical the book is largely concerned with the changes in American life as felt by the author.

Tarkington, with humorous and ironic pen, touches on the early days of the automobile, the beginning of aviation, the World War, prohibition, literature, even what he calls the "immigration of women."

His observations are accompanied with clever life pictures depicting the changes as he points them out. One of the most amusing is the story of the man who became mental, unbalanced and ever after inclosed in a white coat with buttons.

This new book is a decided change from the other Tarkington fiction. All that Tarkington produces is as new and unexpected as was "The Magnificent Emersons" after "The Penrod" books, and "Clare Ambler" following closely in the wake of "The Philocretal." Few novels have that overwhelming capacity for making one the "What Next?" feeling that Tarkington arouses with nearly every new publication.

WHILE THE NOVELS. HEADS BEST SELLERS. ETHEL WHARTON'S fall novel, "The Children," heads a best seller list compiled this week by McClure's. Other novels listed are "Foolish Virgin," Kathleen Norris, "Spider Boy," Car van Vechten, "Old Pith," Warwick Deering, "Deauville," Percival C. Wren, "Swan Song," John Galsworthy, "Show Girl," J. J. McAvoy, "Bad Girl," Van Delmar, "Breeze of San Luis Rey," Thornton Wilder, "Diverser," Markingway Kantor, "All Kneeling," Anne Parrish, and "Mystry of the Blue Team," Agatha Christie.

No fiction books mentioned on the list are "Strange Interlude," Eugene O'Neill, "Here, There and Here where," Dorothy Alder, "Gothic," the history of man, Emil Ludwig, "Dawn of Primitives," "Nothing," Samuel Hoffenstein, "John Brown's Body," Stephen Vincent Benet, "We," Charles A. Lindbergh, "Disfield," Anne, "The Intelligent Woman's Guide to Socialism and Capitalism," George Bernard Shaw, "Mother India," Katharine Mayo, "Son of Man," Emil Ludwig, and "Three Musketeers of the Air," Capt. Hermann Koell.

Additional volume named on an "October best seller" list are three unusually fine novels "Strange Case of Miss Annie Sprague," Louis Bromfield, "Siles Bradford's Boy," Joseph C. Lincoln and "Destiny Bay," Donn Byrne.

PUBLICATION OF BOOK DELAYED. Publication of the last book of Anatole France, "Habeas Corpus," a combined biography and critical study, has been postponed until next spring by Henry Holt & Co., who first announced its publication for this year.

THE distinctly American festival of Thanksgiving will be appropriately celebrated this year with the new anthology of modern short stories, "Thanksgiving Day in Modern Story," edited by M. and van Buren and Katherine I. Bonts. It is the fourth book in the popular series of anthologies which already includes "Christmas in Modern Story," "Christmas in Storyland," and "Mother in Modern Story" by the same editors.

FRAUD HEARINGS

Ninety-six Witnesses Summoned To Appear; Result of Election Charges

Washington, Nov. 23.—Ninety-six witnesses have been summoned to appear in the election frauds investigation to be opened at McAllen, Tex., on Nov. 26 by the special house campaign funds committee. It was learned today.

They include witnesses suggested by Republicans, who claim that the Democrats voted thousands of Mexican illegals, and witnesses suggested by Representative John N. Garner, Democrat of Texas, who charged that the American Taxpayers' association campaigned against him because he fought repeal of the federal inheritance tax.

TELLEGEN DIVORCED

Actor Receives News in Columbus; Wife, 25, Wins Decree

Columbus, Nov. 23.—"Fate guided us; we cannot guide fate!" With this cryptic phrase, smilingly uttered, Lou Tellegen today greeted the news of the end of his third matrimonial venture on the shores of the divorce court.

"Why should I hold her?" queried the debonair Tellegen, referring to Mrs. Isabel Craven Tellegen who was granted a divorce in Los Angeles yesterday. "She is young, only 25, it is utterly foolish for us to be bound together when life is so short."

GIRL TAKES LIFE

Leidenburg, N. J., Nov. 23.—Ordered by her father to return to her home from Baltimore, Katherine Seuff, 18, shot and killed herself on the doorstep of her father's home. A pistol was found in one hand and in the other the following note: "Dear Dad: You ordered me home and here I am."

GUEST AT MEETING

Cleveland Woman Entertained As Aid Society Visitor

Mrs. Frank Elliott, of Cleveland, was a guest when members of Circle No. 7, Ladies Aid society Epworth M. E. church were entertained at the home of Mrs. Frank Knapp, Bradford st., yesterday afternoon. Twenty-

eight members responded to roll call

with thoughts on "Thankfulness." The time was spent in sewing and a short program was given. Mrs. D. E. Montgomery read a poem, "The Housewife's Part," and Miss Jean Knapp contributed a piano solo, "Dream Song." Misses Marjorie and Jerry Knapp gave invitations. Refreshments were served by Mrs. Knapp and her assistants, Mrs. James

Bonner, Mrs. J. Brown, and Mrs. F. L. Peavey.

The next meeting will be held Thursday, Dec. 27, at the home of Mrs. D. E. Montgomery, South Vine st.

QuestionsColumbus, Nov. 23.—The state util-
ity commission today had con-
tinued indefinitely the public hear-
ing relative to the appeal of officials
of the West Ohio Gas Co. from the
gas rate ordinance passed by the
Lima city council.When the hearing was recessed late
yesterday, counsel for the company
and the city, it was stated, had agreed
to confer with a view to determining
upon a form of detailed questions
covering testimony similar to that
just submitted to the commission
relative to the company's valuation
of its properties for rate-making
purposes. This plan was proposed by the
commission as a means of speeding
up the case and reducing the time
devoted to public hearing.It was indicated that a date for
resuming the public hearing will be
fixed as soon as the contemplated
questions and answers are submitted
to the commission in the form of ex-

BUCKEYES OFF FOR ILLINOIS GAME

OHIO STATE ELEVEN TO CLOSE BIG TEN SEASON SATURDAY

Barratt Back to Center; Report Backfield To Be Changed

COLUMBUS, Nov. 23.—With all of the players in top playing condition, the Ohio State university football team was expected to arrive in Champaign, Ill., sometime early today where it will clash with the University of Illinois grid team in the final game of the Big Ten season, Saturday.

Mid-air-bombing celebration in which thousands of students and fans participated, the Buckeye eleven left here last night at 11 o'clock on board a special train with the coaches and training corps. The send-off celebration took place at the union station.

Pregame doings gave Ohio an even break with the Illini. Both teams will enter the game with their wits sharpened by one defeat each. The Illini were defeated by the Michigan squad and Ohio's chances to annex the Big Ten crown were faded by the fabled Hawkeye aggregation from Iowa.

In spite of the fact that Wisconsin is in the lead of the Big Ten and has a sparkling record, the winner of the championship will not be known until the winners of the three Big Ten matches Saturday are settled. Should Wisconsin continue its winning streak against the Minnesota team it will survive in the conference, in spite of the results of the remaining three. A Wisconsin defeat, however, will give Ohio and Iowa slices of the honors should they win their respective games.

All of the Buckeye gridmen were in uniform for the final practice of the season last night. Squad drill and intensive practice for the place kick and drop kick artists constituted the practice program.

The traditional feature of the closing practice of the season, "the senior tackle" marked the end of the year's practice. Followed by Coach Jack White who will end his career of 16 years at Ohio State, June 1, 13 graduating members of the squad flung themselves at the tackling dummy as the last activity on the practice field.

While the starting lineup will not be known until a few minutes before the game Saturday, it was revealed following practice yesterday that a general shuffling of the Buckeye backfield may take place for the game. At several of the practices this week a backfield combination consisting of Touch, quarterback, Krick and Ely, halfback and Holman, fullback, worked out together. Strong possibilities that this combination would start in the Illini fray, were given today.

The official commentator, however, who reports the secret practice, announced the starting backfield would likely consist of Holman, at quarterback, Ely and Krick at halfbacks and Krumkamp at fullback.

The Buckeye line, despite the unknown constituents of the offensive power, will be practically the same which has started previous games this season. Jarrett who was reported missing from the practices until Wednesday, will be in his old job at center. Whelby and Young will take the guard berths; Larkins and Kuskorick at tackles, and Foster and Alber at ends.

All reports that Ohio's halfback center had hit the matrimonial trail over the week-end which was believed responsible for him being missing, have been denied by the athlete.

"PEST" AMONG THE BOILERMAKERS

Ralph ("Pest") Welch, campy Purdue halfback, has just fitted one off into the beyond with that ton of his. It has custom to be that his grid name implies and quite a bit more.

PLAN CHANGE

New Ball May Be Adopted by Golf Association

New York, Nov. 23.—Golf's long battle will be turning in considerably higher scores in 1930 if the larger, lighter and less lively ball is adopted by the United States Golf Association, as indicated here yesterday at a meeting of the executive committee of the association.

The proposal was suggested last summer by the Royal and Ancient society of St. Andrews the ruling golf association abroad. Although no official action was taken yesterday regarding the proposal, conferences are to be held via cable with the Royal and Ancient between now and the annual meeting of the U. S. G. A. here on Jan. 6.

Industrial Cage League Will Organize Tonight

FINAL steps towards the organization of the Marion Industrial basketball league will be taken tonight when a meeting of all interested teams will be held at the Marion Business college building, West Center st. The meeting will start at 8 o'clock. Election of officers, discussion of rules and the drawing up of the season's schedule will take place at that time.

From present indications at least eight teams will take part in the league. A large number of new teams will be seen in the various lineups and several new organizations are planning on entering. Professional players are to be barred this year, it was announced.

TO GET REST

Pittsburgh, Nov. 23.—Scotland, 2:05, the good colt trotter owned by Henry Oliver of Pittsburgh, will be given a rest until 1930 when he is a five-year-old, according to present plans. He made strenuous campaigns as a two and three-year-old in charge of Tommy Murphy and the well-known colt developer, Ben F. White. It was Scotland who forced Pireglio to the world two-year-old trotting record of 2:04 in the Junior division of the Kentucky Futurity in 1927.

Consulting Staff at Xenia Home Holds Annual Meeting

Xenia, Nov. 23.—Closing its annual meeting with an inspection of the \$100,000 hospital being constructed at the Ohio Soldiers' and Sailors' Orphans' home, the medical and surgical consulting staff of the home today had elected Dr. Cassius Shepard, Columbus, orthopedic specialist, as dean of the staff. Dr. A. C. Messenger, Xenia, was re-elected secretary.

Four new members were elected to the staff. They are Dr. Griene Mitchell, University of Cincinnati; Dr. A. V. Duchmeyer, University of Cincinnati; Dr. Walter M. Simpson, Dayton, and Dr. J. W. Stewart, Dayton.

Robert S. Marsh, Columbus, state architect, addressed the staff at its banquet meeting.

YORK U. AND GIE TECH TO LE FOR TITLE

Tackles Nebraska
sin Meets Minnesota
in Headliners

DAVIS J. WALSH
Nov. 23—Pittsburgh,
West Point, N. Y., Mad-
and Berkeley, Cal., will
be points of the football
morning, the quadrangular
nation's eyes. Full many
will clamor for national
where—with that but
tion, Harvard versus
means in the back-
Carnegie Tech and New
York, the Army and Ne-
braska and Minnesota
and Stanford must
major attention.

After much furious battling
the co-ed teams seem to have better
staying powers. They have two mar-
velous backs—Devine and Locke
and what one can't do the other can.
though for that matter it is hard to
find anything in football that Devine
can't do. True, Locke is a shade bet-
ter line breaker than Devine, but it is
part of Coach Jones' general plan
this year to have Locke do the heavy
turning of the line saving Devine's
strength for the flashy and running,
punting and passing. This Devine
has been doing to the satisfaction of
every All-American picker in the
country.

OSERVE him now as he stands
in point formation square back
of the ball. He calls the signal and,
at his pressing of the button, the
whole machine leaps into action. De-
vine himself is like the gun on the
bridge of an ocean liner, directing its
speed and course by just a word
down into the engine room.

He's another Ekersall, another
Daly. He always picks the right play,
and he dodges, squirms and flies
about as nifty as a will o'wisp; he's
about as unapproachable as any of the
famous crack backs.

ONE writer said of him that he ran
like driven rain drops down a
greasy window pane—"darting, halt-
ing, shooting off in a totally different
direction, hesitating while gathering
power, then scudding on again like a
lightning stroke."

Then he passes the ball to Deillon,
not where Deillon is now, but where
he will be when the ball gets there.
Devine splits tenths of a second in his
judgment of when to throw the ball,
where, how high, how hard—accord-
ing to where his receiver is, the speed
with which he is going, his ability to
handle the hard or soft, and where
he is going. These tactics against
Notre Dame yield gains such that with
third or last down the distance to go
is not so great but Locke can nearly
always make the yardage for first
down with a stern buck, and then
Devine's work begins again. By these
means Locke has scored one touch-
down, and now, standing on the 25
yard line, Devine clinches the victory
by kicking a field goal.

IN 1919 playing against Chicago,
Devine gave a 100 per cent imitation
of Steffen's skilled trickery of a decade
before by bluffing a forward pass.
When he saw Chicago half covering
his end, he pulled the ball down again
stuck it under his arm and went
around Chicago's end—three times,
for long gains.

The vital statistics at the top of
this story tell in cold type what De-
vine was on a football field, but they
are not emotional and they don't im-
part thrills the way Aubrey Devine
did. The most glowing adjectives and
adverbs in our language fail to paint
realistically how superlatively clever
this dangledevil was how he made "hair
pin" turns and nerveless runs look
easy because of the grace and smooth-
ness of his oiled stride. And the most
astounding thing about it all was that
the system designed by his coach
called for him and nobody else to take
the ball on the average of four times
out of five.

CRISP NEWS TO CIGAR SMOKERS, 5c

One nickel. It won't break you,
and it won't make you. But it will
bring you some real news about
cigars—and Havana Ribbon in par-
ticular. Not that this thirty-year-
old cigar hasn't always been clearly
at the head of five-cent cigars. But
Havana Ribbon today carries a
story of quality and money value
never before attained in the history
of five-cent cigars. It's ripe tobacco,
ripe tobacco (the full-flavored
middle leaves of the plant) gives a
cigar a true, mellow-mild flavor you
can't mistake. Long filler keeps the
tobacco in the cigar—and out of
your mouth (no short, loose ends).
Not another cigar made that com-
bines these two great features with
such completeness for the money!

Popularity has done it. Millions
being smoked. Immense production
has brought manufacturing costs
down and quality up. Try Havana
Ribbon and get the startling signifi-
cance of these facts direct. A nickel
is all that stands between you and
a pleasant surprise.

Also sold in Practical Pocket
Packages of five cigars.

FRED HOVDE MOST POPULAR PLAYER IN BIG TEN CIRCLES

Six Conference Coaches
Name Minnesota Luminary
for All-Star Team

CHICAGO, Nov. 23—Fred Hovde,
quarterback, playing his last sea-
son with the University of Minnesota
eleven, today was voted by Western
conference coaches the outstanding
Big Ten star of the 1926 season.

A compilation of the selections
made by the Big Ten coaches for In-
ternational News Service showed that
Hovde was picked for the Western
conference All-star mythical eleven
by more coaches than any other
player. Six of the mentors cast
their ballots for the Minnesota lum-
inary for quarter in the galaxy of
stars.

Walter Holmer, the fast, plunging
fullback of Northwestern university,
was the second most popular selec-
tion of the football instructors, five
coaches naming him as their choice.

Among the teams the University of
Minnesota and the University of
Iowa were tied in the number of play-
ers voted positions on the eleven.
Three players from the Gophers and
three from the Hawkeys were
picked.

Michigan, Wisconsin and Indiana
each got two players on the eleven
and Northwestern, Ohio and Illinois
one each. Purdue and the University
of Chicago failed to obtain represen-
tation, although several coaches liked
the Hoosier back, but failed to give him enough votes to

place over Glasgow of Iowa and
Bennett of Indiana.

Next to Hovde and Holmer as the
most popular choices Schleusner of
Iowa, Randolph and Bennett of In-
diana, Gibson of Minnesota and
Glasgow of Iowa were tied for hon-
ors, each receiving the votes of four
coaches.

For one of the guard and one of
the tackle positions on the team of
luminary there were no outstanding
choices and the votes resulted. Wag-
ner of Wisconsin, Nowack of Illinois
and Toumening of Michigan were
tied for a tackle berth and West-
er of Iowa, Poe of Michigan and
Glasgow of Iowa were tied for hon-
ors, each receiving the votes of four
coaches.

The coaches who participated in
the selection were Glenn Thistleth-
waite, Wisconsin; C. W. Spears,
Minnesota; Burton Ingwersen, Iowa;
Flet. Hanley, Northwestern; H. O.
Page, Indiana; J. M. Phelan, Purdue;
Robert Zupke, Illinois; and E. E.
Weiman, of Michigan. Coaches A. A.
Stagg of the University of Chicago
and J. W. Wiley of Ohio did not
vote.

WESLEYAN ELEVEN TO SPEND NIGHT IN MAGNETIC SPRINGS

Bishop - Wittenberg Battle
Tops Ohio's Football Card
Saturday

DELAWARE, Nov. 23—Facile-
ment over the Ohio Wesleyan-
Wittenberg football game here Satur-
day is running so high that Coach
George Gauthier will take his Bat-
tling Bishop squad to Magnetic
Springs tonight to keep them out of
the local atmosphere which is super-
charged with football on the eve of
this important game.

The greatest crowd which has ever
witnessed a football game here will
watch the championship battle Satur-
day, for over 7,000 reserved seats
have been sold and unless weather
conditions are entirely too bad from
8,500 to 9,000 people will see the
game.

A play by play account of the con-

test is to be broadcast through
WCSO, Springfield. The account of
the game being played from the press
box at Edwards field to the broad-
casting station in Springfield.

Coach George Gauthier will start
the same Ohio Wesleyan team which
he has started in each of the eight
games which the Bishops have won
to date. Every player on his squad
is in condition for action if needed
against Wittenberg.

Devote their self, battles with
Syracuse and Ohio on the last two
Saturdays, the Battling Bishops are
rounding into good form for their
game with Wittenberg. All indica-
tions point to the fact that Coach
Gauthier has been able to do what
many considered impossible in pick-
ing this team for the final game af-
ter their heavy battles on the two
preceding Saturdays.

The two teams as nearly as can be
determined here, are remarkably well
matched in weight, Wittenberg hav-
ing only a slight advantage on the
line which the Bishops should offset
by a similar margin of superiority in
their backfield.

EN ALL-BRAN VED HIM FROM ONSTIPATION

Message for people who use laxatives.

Dr. Skiles wrote us a voluntary testimonial after Kellogg's ALL-BRAN had saved him from dread-constipation. Read his tribute:

"I have been so constipated, trying every kind of drug possible, and only get temporary relief. I became so weak and gave up hope, when I read in the paper that Kellogg's ALL-BRAN had saved him from dread-constipation. I cannot express words enough to meet with Kellogg's food." —DR. SKILES, 325 N. Kodak Avenue, Chicago.

constipation is preying upon health, check it before too late, you are using habit-forming laxatives, stop it before this harmful practice fastens its grip too.

Kellogg's ALL-BRAN is guaranteed to relieve constipation. Just two tablespoons daily, in any case, with every meal, will recommend ALL-BRAN. 100% bran cereal—delicious with or cream—fruits or honey. Use in cooking too. Sold by grocers. Served everywhere.

DENY BOYER CHILD TRUST FUND INCOME

Court Action Taken To "Straighten Out Case Legally"

Detroit, Nov. 23.—Dede Alfred Boyer, 5-year-old boy, who was obtained by Mrs. Laura M. Boyer, wife of Myron Boyer, from a Windsor hospital, when a few days old and passed off as her own child, yesterday denied any income from, or right in, the \$5,000,000 trust fund of Joseph Boyer, multi-millionaire chairman of the board of the Harmons Adding Machine Co.

Judge Arthur Webster also ordered the correction of state birth records that they might show "Dede"

was not a blood relation of either Myron Boyer or his father, Joseph Boyer.

Mrs. Boyer testified that while her husband was away, she had a four-day-old baby brought into the home, the child of a Windsor girl and later passed off as her own, and her husband's.

Later Joseph Boyer created a \$5,000,000 trust fund for the boy.

Mrs. Boyer formally adopted the child last March after admitting the deception.

It is understood that Joseph Boyer has made ample provision for the care of the child.

All parties to the suit were in agreement as to the facts and stated they "merely wanted to get everything straightened out legally."

Women's Relief Corps will hold a rummage sale Saturday, Nov. 24 in the Leclonia, block, 210 W. Center st.—Adm.

BREAD!

How Many Bites to a Slice?

Not many, when a growing lad who's hungry gets his teeth into a big sweet crusty slice of good bread.

Flavor counts in bread enjoyment. "Tastes Good"—that's the biggest compliment we can pay our food. It means that appetite is stimulated, digestion is right on the job.

When hungry.—Eat Bread. And for Health's sake, always eat bread that tastes good—

HONEY-KRUST BREAD

It's the loaf rich in good flavor and breadly deliciousness. Pure materials, skilled mixing and baking—in spick and span surroundings, make it your perfect Food.

ADVERTISING SANTA

ONE of the many clever schemes of advertising for the holiday season is being used by the toy department of one of the large local stores. It is a large folder of two sheets of paper, and the outside cover is one of the most brilliantly fantastic ever designed. To attract the kiddies' attention, a trip is started from town through a maze of roads to Santa's castle, far in the northland, passing the Wicked Wizard, Puss in Boots, Haunted House, All-Things Cave, Jack and the Beanstalk, Cinderella, Treasure Island, Searchers of Oz, Boy Blue, Pirates' Cove, Aladdin's Castle, Pied Piper and numerous other good and bad fairies and story-book characters dear to the hearts of children. A spinning board is supplied with the game, and if the player isn't lucky he must miss a play, go back one space on the board or take whatever penalty is printed on the route.

The game is certain to attract not only the kiddies, but also their parents, for between its delightful covers are toy ads that will come in handy for Christmas shopping.

NG MURDERERS PROBLEM OF COURT

Seek Remedy for
Crime Among
Boys

Nov. 22—Is there
any remedy for the "boy" murder
problem among youths
in Marion County?
Judge G. H. Howard, of
Fulton County, asked the grand jury
to study the situation and try to find
a remedy.

Among the outstanding criminal
cases here within recent weeks in
which more boys have been involved
one war or another, are:

1. George Harsh and Richard Gal-
loghly, sons of wealthy families, under
indictment for slaying two store clerks
for a "thrill."

2. The slaying of Paul Hulm, 16-
year-old Tech High school student,
whom police believe is the victim of a
boy game feud.

3. Alfred Lyons, 15, indicted on
charges of assault with intent to kill
his chum, Carlyle Jones, 17.

"While I'm an optimist," said Judge
Howard, "and hold the opinion that the
human race is steadily growing
better, I cannot but feel discouraged
over the constant increase in crime
conditions among our youth."

Liquor Blame
The jurist said he believed that il-
licit liquor was at the root of most
of the cases. Crimes actuated by
whiskey always showed a sharp in-
crease during the months of Novem-
ber, December and January, the judge
said. This he ascribed to the influx
of liquor for Thanksgiving, Christmas
and New Year holidays.

Judge Howard recalled that when
he was a boy himself it was a rare
occasion that a white youth appeared
before a criminal court. However,
that condition, he pointed out, has
now reached the point where the num-
ber of white boys tried into court
exceeds that of all other races.

"I have studied the situation, but
I've been unable to come to any solu-
tion for the evil," he said.

London Women Ask
FOR MAN'S RELEASE

Desertion Charge Results in
Imprisonment of Oxford
Student

London, Nov. 22—Appealing per-
sonally to the Queen of Spain, two
London women are making a strong
attempt to secure the release of Alex
Ozgen, son of a distinguished
Oxford scholar, who is being held
prisoner by the Spanish authorities
on a charge of desertion from the
Spanish Foreign Legion.

The women are Ozgen's wife and
mother. They have sold all their
possession to further their campaign.

Ozgen joined the Spanish Foreign
Legion in Barcelona, and fought
against the Riffs in Morocco. What
his relatives describe as "intolerable
conditions" led him to desert, but af-
ter ten days of liberty, he was re-
captured by the French and handed
over to the Spanish authorities.

In letters to his wife, Ozgen de-
clares that he has been cruelly
treated, and that for nearly two years
he has been kept prisoner without
benefit of trial.

Mrs. Ozgen has appealed to the
British and Spanish Foreign office,
the Queen of Spain, the Prince of
Wales and the British Ambassador in
Madrid in an effort to obtain her hus-
band's freedom.

It pleases a punctual man to be
promptly into just because he
knows the other man will not be on
time.

HEAD OF MARIWIT SECT IS GIVEN SENTENCE

WARSAW—Bishop Kowalski, head of the Mariawit sect who was accused of improper conduct toward the nuns of a cloister he had founded, has been sentenced to four years in prison. Of these he will have to serve only two years and eight months because of a recent amnesty law.

The trial which lasted for six days was a sensation throughout Poland. Kowalski declared he was wholly innocent. "I am a reformer and all religious reformers have had to suffer," he declared. "I only hope that the Mariawit sect which merely wants peace and a return to original Christianity will survive."

No matter what else you may say of the egoist, he has the happy faculty of pleasing himself.

A Man's Sweetie Won't Tell Him

There's a reason why at times she refuses to tell. Your face looks like a nutmeg. You ought to use this new, different shaving cream, RAZOR. Softens toughest bristles instantly, no even a dull blade slides thru like greased. Thick, cool lather, yet no irritating soap. Shaving goes twice as fast. Best of all, it leaves your face cool, soft and smooth as a girl's for hours, because it contains the ingredients of a woman's beauty cream. Ask for KEEN Shaving Cream today. Money back if not delighted. It druggists haven't it, send 50c to Gleason Co., Findlay, Ohio, Desk 2.—Ad.

THEATER AND MOVIE BUILDING BOOM ON

Old London Sees \$20,000,000 Spent on Amusements in Few Years

London, Nov. 23.—London is in the throes of a theater and cinema building boom.

Twenty million dollars, it is conservatively estimated, have been expended on the erection of new theater buildings and cinemas during the past two years in the West End section of the capital alone. Building is progressing at just as fast a rate in the suburbs, and the total capital involved is probably \$20,000,000.

New buildings are being opened or commenced almost weekly in every part of the city, some of them of the small intimate type, but the majority palatial structures complete with mechanically operated singers, organs, vast orchestras, and the like.

London Seeks Pleasure

Experts conclude from the boom that the Londoner more and more is becoming a seeker after pleasure, and that the habit of going out for entertainment is growing until it threatens to equal that of Paris and New York.

With the opening of two new cinema theaters just before Christmas, the number of cinema seats in the West End will have increased by nearly 200 per cent. In two years, while in the suburbs the percentage is probably even greater, since theaters have been built in districts hitherto barren of amusement places. Millions of dollars of American money have found their way into these new ventures. The large American producing and distributing film corporations were the first to see the possibilities of providing London with luxurious cinemas, and two years ago started the boom by opening a palatial structure on the site of the old Tivoli music-hall in the Strand.

Since then nearly fifteen theaters

and cinema have been built or commenced in the West End section, with a total seating capacity of nearly 22,000 and prices ranging from a quarter to \$1.

The money expended on the new structures is enormous. On a rough average, every new building has cost approximately \$1,500,000 and there is one instance of a particularly impressive cinema, now being built on the site of the old Empire theater, costing \$1,000,000.

Built to Last

The old idea of a movie theater being a flimsy structure run up to catch chance customers has changed, in the opinion of observers. "Picture theaters are now being built for posterity," said Colonel Bromhead, head of a large British film producing and distributing concern to International News Service.

"Apart from changes of taste or destruction by fire the cinema theaters now being built or built during the past two years will last for centuries."

Judging from prospectuses now being issued by new companies, there will be no slackening in building for some time to come. The public apparently have no fear of putting their money into these ventures, and every house is usually over-subscribed.

A feature of the boom is the size of the buildings being erected in the suburbs. Houses to seat 5,000 patrons are being rushed up in some districts where there is hardly that number total population, and many believe a crash is due unless these districts develop rapidly.

You never can tell. The loud month doesn't always put up a sound argument.

Virtue is its own reward, but vice gets more publicity.

Golf is a game in which you hit little balls at intervals and talk about it the rest of your life.
